

```
graph BT; A[src/cbase64.cpp] --> B[include/caribou++/cbase64.h]; C[src/cwebsocket.cpp] --> B;
```

include/caribou++/cbase64.h

The diagram illustrates a header file dependency. At the top, a grey rectangular box contains the header file path 'include/caribou++/cbase64.h'. Below this box, there are two white rectangular boxes. The left box contains 'src/cbase64.cpp' and the right box contains 'src/cwebsocket.cpp'. Two blue arrows originate from the top-right corner of the left box and the top-left corner of the right box, both pointing towards the bottom edge of the top box, indicating that both source files include the header file.

src/cbase64.cpp

src/cwebsocket.cpp
